

Robotics Camp 2010

Description:

Sarah Heinz House is proud to announce ROBOCAMP 2010. This year we will hold three different types of camps. All camps will run from 10 am until 4 pm and are 5 day camps. Camps are run by qualified, and well trained, college age students. ROBOCAMP provides a 1 to 4 ratio of counselors to students that allows independent learning, as well as working in teams, which is so important in today's world. Students will learn to problem solve, program, build, and work together as they face smaller challenges building up to a large camp competition. Camps will end with a presentation of the students' work. Each camp will have the opportunity to go swimming from approximately 3pm until 4pm each day. Depending on time, students may also have the opportunity to use the game room or gym after lunch. Pre-care is available from 8am until 10am each day for a dollar an hour. Post-care is available from 4pm until 5pm each day for a dollar an hour. All post-care and pre-care money is to be paid daily.

Dates:

June 21 – June 25: 1st through 4th grade ROBOCAMP

June 28 – July 2 : 5th through 8th grade ROBOCAMP

July 12 – July 16: 5th through 8th grade ROBOCAMP
